

# Introducing LiftBoss® by SolidBoss®

## Low-Profile Pneumatic Telehandler Tires from SolidBoss®

Now you can reduce your cost-per-hour of operation of your telehandler by 30% or more over the life of the tires. In a recent field test, LiftBoss™ Tires outlasted the industry-leading tire by 10% plus proved to be more durable, experiencing less chunking and other tire damage.

LIFTBOSS PNEUMATIC TELEHANDLER  
TIRES ARE CURRENTLY AVAILABLE IN THE  
INDUSTRY'S TWO MOST POPULAR SIZES:  
370/75-28 AND 400/75-28

### LIFTBOSS OUTPERFORMS INDUSTRY LEADER

Leading brand shows  
significant chunking

LiftBoss shows minimal  
damage after 240 hours

### ➤ Increased Stability and Reduced Cost of Operation

Low-Profile tires offer increased stability in field testing and in actual application. But the main benefit of LiftBoss Pneumatic tires is their longer life. Depending upon your applications, that benefit provides operators true and significant cost-of-operation savings of 30% - 35%.

### ➤ Proprietary Rubber Compounds

The key to LiftBoss success is the very high quality and proprietary rubber compounds developed by SolidBoss over many years of research.

*Lift your telehandler to a new level of  
performance and savings. Equip it with LiftBoss!*
