# SolidBoss Aperture Tires Perform And Endure

- ▶ Eliminate Downtime Due To Flats
- ▶ Get Longer Life From Your Tires
- ▶ Reduce Your Equipment Operating Costs
- ▶ Great Ride For Man And Machine
- ▶ Options For Improved Traction And Flotation

Fit your skid steer, loaders, telehandlers and backhoe machines with SolidBoss Aperture Tires and you'll avoid those costly and frustrating flats and downtime. You'll get more satisfying results, including a great ride for man and machine and reduced operating costs – due to longer tire life and no downtime and flat repair costs.

SolidBoss Aperture Tires come with several tread options to fit your jobs and preferences.

# SolidBoss Expanded Wheel Solids A Solid Choice For Severe-Duty Applications

- ▶ No flats, no downtime
- ▶ Test-proven to be the low cost-per-hour-of-operation tire
- ▶ Solid performance for the harshest environments
- ▶ Durable for long wear
- ▶ High elastic natural rubber compound to reduce chunking

Our SolidBoss Expanded Wheel Solid Tires will become your best friend for trying harsh environments. SolidBoss Tires provide the best value for the harshest working environments you will encounter.

Our tires are manufactured with the highest quality natural rubber compounds that ensure durability and long wear cycles. Combined with the elimination of flat tire repairs and downtime, SolidBoss becomes an easy choice for your tough jobs.
